Contents of Volume 32

Review Paper

Mechanism and kinetics of the selective hydrogenation of ethyne and ethene 1
A. N. R. Bos and K. R. Westerterp (Enschede, Netherlands)

Absorption of NO in aqueous solutions of Fe(II)EDTA: determination of the equilibrium constant 9
H. Nymoen, D. van Velzen and H. Langenkamp (Ispra, Italy)

Fluidized bed drying of materials wetted with a binary liquid mixture 13
J. Schwarzbach and E. U. Schlünder (Karlsruhe, Germany)

Gas to gas heat transfer in micro heat exchangers 33
W. Bier, W. Keller, G. Linder, D. Seidel, K. Schubert and H. Martin (Karlsruhe, Germany)

Dynamics of filtration and expression: new methods for combined analysis and calculation of the processes with due account of the cake consolidation dynamics and the filter medium compressibility 45
E. I. Vorobjov, J. V. Anikeev and V. M. Samolyotov (Kiev, Ukraine)

A kinetic study of the hydrogenation of ethyne and ethene on a commercial Pd/AL_2O_3 catalyst 53
A. N. Bos, E. S. Bootsma, F. Foeth, H. W. J. Sleyster and K. R. Westerterp (Enschede, Netherlands)

Solid–liquid mass transfer in a fixed-bed reactor with concurrent flow. Part II. Mathematical analysis for the pulsed flow regime 65
G. Bartelmus (Gliwice, Poland)

Forthcoming Meeting 75

Selection of recovery zone height in flotation column design 77
M. T. Ityokumbul (Devon, Alta., Canada)

The lumping of heat transfer parameters in cooled packed beds: effect of the bed entry 83
E. J. Westerink, J. W. Gerner, S. van der Wal and K. R. Westerterp (Enschede, Netherlands)

Progress in *reverse-process* application to catalytic incineration problems 89
Yu. Sh. Matros, A. S. Noskov and V. A. Chumachenko (Novosibirsk, Russian Federation)

Pressure drop and heat transfer in shell-and-tube heat exchangers without baffles. Part I. The Graetz–Nusselt problem in a cylindrical shell containing a bundle of seven tubes 99
W. K. Kim, H. Martin and V. Gnielinski (Karlsruhe, Germany)

Dynamic modelling of industrial SO_2 oxidation reactors. Part I. Model of 'hot' and 'cold' start-ups of the plant ... 111
K. Gosiewski (Gliwice, Poland)

Enhancement of heat transfer from air-fin coolers with water spray 131
H. Walczyk (Gliwice, Poland)

Book Reviews 139

Experimental investigation of a dense-phase pneumatic transport system 141
T. Ramakrishnan, K. Ramakoteswara Rao, M. A. Parameswaran and S. Sivakumar (Madras, India)

Bubble column and three phase fluidized beds: a comparison of axial dispersion and gas–liquid mass transfer by dynamic absorption 149
S. Syaiful, A. M. Wilhelm and H. Delmas (Toulouse, France)

Through drying of paper. Part I. Suction drum design from constant air flow rate data 155
M. Tietz and E. U. Schlünder (Karlsruhe, Germany)

Through drying of paper. Part II. Additives in the air improve product quality 161
M. Tietz and E. U. Schlünder (Karlsruhe, Germany)

Application of sensitivity analysis to the reduction of a complex kinetic model for the homogeneous oxidative coupling of methane 167
J. Y. Zhu, R. Dittmeyer and H. Hofmann (Erlangen, Germany)

Elsevier Sequoia

Steam reforming and methanation effectiveness factors using the dusty gas model under industrial conditions.... 177
S. S. E. H. Elnashaie and M. E. E. Abashar (Riyadh, Saudi Arabia)

Gas pressure drop and heat dispersion in a layer of fibrous material 191
P. Vychodil, V. Staněk (Prague, Czech Republic), G. A. Fateev (Minsk, Belarus) and N. Vegyte (Vilnius, Lithuania)

Book Reviews 199

Simultaneous mass transfer of heptane and toluene into a selective solvent..... 201
A. Paschke (Merseburg, Germany)

Breakdown of particles into flow during filtration on precoat filters 209
I. M. Leichkis (Kiev, Ukraine)

Parametric studies on heat and mass transfer in metal hydride beds..... 217
M. Ram Gopal and S. Srinivasa Murthy (Madras, India)

Construction and application of a jet-stirred loop reactor 225
S. Fuchs and T. Hahn (Karlsruhe, Germany)

Dynamic modelling of industrial SO_2 oxidation reactors. Part II. Model of a reverse-flow reactor 233
K. Gosiewski (Gliwice, Poland)

Vacuum freeze-drying of a liquid in a vial: determination of heat and mass-transfer coefficients and optimisation of operating pressure..... 245
F. Rene, E. Wolff (Thiverval, Grignon, France) and F. Rodolphe (Jouy en Josas, France)

The influence of mass transfer on the electrochemical synthesis of adiponitrile..... 253
K. Scott (Newcastle-upon-Tyne, UK) and B. Hayati (London, UK)

Book Review 261

Condensation of vapours of binary immiscible liquids..... 263
O. Tutkun (Gebze-Kocaeli, Turkey)

Study of the stability of octyl pyrophosphoric acid (OPPA) solvent in the extraction of uranium from phosphoric acid 273
S. Khorfan (Hams, Syria)

Analysis of a modification of the ASOG method for vapor–liquid equilibrium prediction 277
J. Tojo and A. Dominguez (Vigo, Spain)

Experimental and theoretical studies of the dynamics of startup and product switchover operations of distillation columns..... 283
G. Fieg, G. Wozny and Chr. Kruse (Dusseldorf, Germany)

Column adsorption in multi-solute water 291
J. Reunanen, S. Palosaari (Lappeenranta, Finland) M. Miyahara and M. Okazaki (Kyoto, Japan)

Filtration on precoat filters as a Markov process..... 301
I. M. Leichkis (Kiev, Ukraine)

High-intensity infrared drying study. Part 1. Case of capillary-porous material..... 311
P. Navarri and J. Andrieu (Villeurbanne, France)

High-intensity infrared drying study. Part 2. Case of thin coated films..... 319
P. Navarri and J. Andrieu (Villeurbanne, France)

Fuzzy control of a semi-batch copolymerization reactor 327
M. M. Mahesh, K. P. Madhavan (Bombay, India) and M. Chidambaram (Madras, India)

On axial dispersion in fixed beds 333
D. J. Gunn (Swansea, UK)

Determination of local moisture profiles during microwave and convective drying 339
A. Stammer and E. U. Schlünder (Karlsruhe, Germany)

Gas recycling as a means of controlling the operation of cyclones..... 345
M. Berezowski and K. Warmuziński (Gliwice, Poland)

Experimental studies of power consumption for agitated vessel equipped with non-standard baffles and high-speed agitator 349
F. Stręk and J. Karcz (Szczecin, Poland)

Pollutant adsorption during activated carbon and steam regeneration in technical columns (experiments, modelling). Part 1. Influence of radial maldistribution in activated carbon beds during adsorption and desorption of air pollutants 359
R. Germerdonk (Kaiserslautern, Germany) and A. Wang (Zhengzhou, China)

Pollutant adsorption during activated carbon and steam regeneration in technical columns (experiments, modelling). Part 2. Influence of process parameters during steam regeneration of activated carbon beds on pollutant exit concentration 369
R. Germerdonk (Kaiserslautern, Germany) and A. Wang (Zhengzhou, China)

Effect of physical parameters on the microfiltration of wine on a flat polymeric membrane 379
M. Y. Jaffrin, B. B. Gupta and A. Chaibi (Compiègne, France)

On mass transfer, dispersion, and macroscopical flow maldistribution in packed tubes. Part 1. Pressure drop and loading point 389
N. Kolev and Sv. Nakov (Sofia, Bulgaria)
